

Hemodialysis Treatment Cost List

Ogasawara Dialysis Clinic 2026/10/16

The fees below apply to temporary hemodialysis treatment at our clinic. Injectable medications are charged separately when used.

■ Basic Fees

Item	Details	Fee
Hemodialysis Fee *	One hemodialysis treatment session. Additional injectable medications are not included.	¥40,000 per session

* **Hemodialysis Fee** includes the cost of the dialysis treatment, medical supplies used during dialysis, dialysis fluid, and the preparation of a medical report in English. All charges are calculated based on Japan's national health insurance reimbursement rates.

■ Optional Fees

Item	Details	Fee
Towel and Treatment Wear Rental Set **	Available for patients who do not bring their own towel and pajamas or other treatment clothing.	¥500 per week
Additional Medication Charges	Charged only when injectable medications are administered during treatment. See the next page for details.	Varies by medication and dose

** **Please bring your own towel and pajamas or other treatment clothing whenever possible.**

If you do not bring these items, you may use the clinic rental set for ¥500 per week, regardless of the number of dialysis sessions during that week.

■ Additional Medication Charges

The standard dialysis treatment fee does not include the medications listed below. Any medications administered during treatment will be charged separately according to the type and dosage used.

Notes

- Medication charges are calculated separately from the standard dialysis treatment fee.
- The medications and dosages administered will be determined by the attending physician based on the patient's medical information and clinical condition.
- Equivalent medications available in Japan may be used if the patient's usual medication is unavailable.
- All prices are listed in Japanese yen and include applicable taxes.
- Payment must be made in cash.
